 By: Ecora Auditor Professional 4.5 - Windows Module 4.5.8010.20310  
 Using: Customized FFR Definition based on 'Services Configured to Use Non-system Accounts'  
 Description: A Fact-Finding report will show values greater than, less than, or unlike a threshold value you set. These reports are very surgical in their precision - you can pull precisely the data you need, but they also offer a wealth of data through hundreds of built-in reports created by experts.

### Services Configured to Use Non-system Accounts

#### Table of Contents

<b>Services Configured to Use Non-system Accounts .....</b>	<b>1</b>
---	----------

#### Collected Not-Collected Legend

DEFAULT	The value presented in the report was not directly reported by the target, but implied by the current value or lack of a value for the attribute
*UA*	Unavailable attribute. The current configuration or version of target platform does not provide a value for this attribute. More detail in logs
