 Using: FFR Definition 'Administrator Groups'
 Description: A Fact-Finding report will show values greater than, less than, or unlike a threshold value you set. These reports are very surgical in their precision - you can pull precisely the data you need, but they also offer a wealth of data through hundreds of built-in reports created by experts.

Administrator Groups

Table of Contents

Administrator Groups	1
-----------------------------------	----------

Collected Not-Collected Legend

DEFAULT	The value presented in the report was not directly reported by the target, but implied by the current value or lack of a value for the attribute
UA	Unavailable attribute. The current configuration or version of target platform does not provide a value for this attribute. More detail in logs
FC	Collection of value failed
NS	Value not selected for collection
