 By: Ecora Auditor Professional 4.5 - VMware Module 4.5.8111.18300
 Using: FFR Definition 'Management Console Access'
 Description: A Fact-Finding report will show values greater than, less than, or unlike a threshold value you set. These reports are very surgical in their precision - you can pull precisely the data you need, but they also offer a wealth of data through hundreds of built-in reports created by experts.

Management Console Access

Table of Contents

Management Console Access	1
--	----------

Collected Not-Collected Legend

DEFAULT	The value presented in the report was not directly reported by the target, but implied by the current value or lack of a value for the attribute
<i>*UA*</i>	Unavailable attribute. The current configuration or version of target platform does not provide a value for this attribute. More detail in logs
<i>*FC*</i>	Collection of value failed
<i>*NS*</i>	Value not selected for collection
